

IN MEMORIAM

EHMA In memoriam – Dott. Paolo Rossi (1968-2019)

Patrick Little

President European Migraine and Headache Alliance

Dott. **Paolo Rossi** was Chief of the Headache Clinic at INI Grottaferrata in Rome and Head of Clinical neurology at the Nursing School at Tor Vergata University and member of EMHA's Board.

Paolo was in particular renowned for his international work in Cluster Headache and for passionately and tirelessly working for a better understanding of the condition and for improved treatment to people who suffer.

But mostly Paolo will be remembered by all our members across Europe as a patients champion. His warmth and humanity were felt by everyone who knew him. His untimely death has left us shocked and bereft. We send our deepest sympathy to his wife and two daughters whom he adored.
